Public Service Commission  
Att: Docketing Department  
P.O. Drawer 11649  
Columbia, S.C. 29211  
Docket # 2009-479-W/S

Dear Sirs:

I am writing in protest of the proposed rate increase by United Utilities Company for Highland Forest subdivision in Greenwood, S.C. United Utilities proposes raising rates from approximately 45 dollars per month to 76 dollars per month. When I moved into the subdivision, I agreed to pay the 45 dollars although it was about 15 dollars more than a comparable household using Greenwood Metro Sewer, which is the public sewer provider in Greenwood.

Greenwood Metro has a sewer line running just below the treatment plant in Highland Forest. I have spoken to parties from Greenwood Metro who said they would explore the possibility of allowing Highland Forest to "tap in" to their line if so asked. This would serve the community in that the noisy plant could be turned off, and the waste water would be sent to a treatment facility better equipped to treat the water, and the money savings would be well received in a community already struggling in these hard financial times.

I trust that this commission will consider the best interests of all parties involved and will decide fairly. Thank you for your service.

Sincerely,

Glenn Williams
